

TRITON 2" X-SERIES

DIAMOND RESIN

The SASE Triton X-Series is an expansion for the Triton Resin series, taking it a step further in results and efficiency. The 800 grit resin is the perfect transition tool heading into the polishing stages. This tool shows it's versatility following densifier, hybrid tools or resins.

HOL.200865

2" Triton X-Series Diamond Puck
White - 800 grit

Removes 400 grit resin scratches and leaves a high shine. Can be the final step in polishing application.
