

SWISSMEX 2.4 Gallon Working Capacity Heavy Duty Acetone Sprayer

The SWISSMEX construction grade sprayer is designed specifically for applying Acetone-based formulations and most alcohols and ammonia based products.

Ideal for spraying dye, densifier & other products over smaller surface areas!

- ✪ Long, flexible EPDM hose resistant to acetone
- ✪ Seals made of acetone resistant materials
- ✪ The sprayer drains from the bottom, allowing to completely empty the tank
- ✪ High performance pump provides enough pressure to empty the tank with two sessions of 40 full strokes
- ✪ Shut-off valve with filter and locking pin for continuous spraying
- ✪ A strong tank, treated with UV inhibitors

2.4 Gallon Acetone Sprayer with Grey tip
