

SC POLY PUMP 10

NEW

- 6.7 gallon tanks easily accommodate 5 gallon pail of material
- Integrated battery/inverter/charger (8 hrs of use out a single charge)
- Mainfold clean-out valves simplify cleaning and make it easy to pump left over material back into buckets
- 15' hoses with thumb switch for easy one person operation
- Heavy duty welded steel construction with a solid base and non marring casters prevent material from dripping onto the floor
