

# CLAW REMOVAL TOOLS

## Wulf Removal Tooling

Maximize removal rates without excessive damage to the floor. The new Wulf Claw from SASE bridges the gap between PCD's and metal diamond tooling, without adding steps to the process. Removal of glues, thinsets, water proofing membranes, epoxies, floats and patches without destroying the underlying substrate.

### FEATURES

- ▶ Available in two bonds for hard to medium and medium to soft concrete.
- ▶ Reduce time on the job.
- ▶ Reduced aggregate exposure during removal.
- ▶ Faster transition from removal to honing.
