

# EDGE PRO 180

## ITEM NUMBER:

DG.EDG180.02

The Edge Pro 180 is a stand-up edge grinder and polisher designed for efficiency and comfort when working around corners, edges, and tight spaces. With a 6" grinding path and variable speed settings, it offers greater versatility compared to using hand grinders.

## TOP FEATURES:

This upright machine reduces the strain of working on hands and knees, making edge grinding more ergonomic and faster. It supports various metal bond and resin bond tooling for both grinding and polishing.

## TECHNICAL DATA:

- Single Phase, 110 Volt, 15 AMP
- Output: 1 HP (1 kW)
- Variable Speed: 600 - 1,750 RPM
- Machine Head: (1) 6" Head
- Grinding Width: 6" (152 mm)
- Grinding Pressure: 53 - 85 lbs (24 - 39 kg)
- Machine Weight: 152 lbs (69 kg)
- Dimensions (L x W x H): 55" x 15" x 43"  
(1397 x 381 x 1092 mm)
- Variable Speed Control
- Directional motor control keeps head against the wall
- Pivoting rear wheels allows grinding parallel to the wall
- Removable weights are positioned directly over grinding head for maximum downward pressure
- Includes 60' heavy-duty power cord
- Connects to SASE® Bull Dust Extractor for dust-free operation
