

BULL 255 EBS

ITEM NUMBER:

VAC.BULL255.EBS

The SASE® Bull 255 EBS Industrial Dust Extractor is a powerful, small tool / small grinder 110 volt dust extractor. It also features heavy gauge steel construction and utilizes the SASE® Elongated Bagging System (EBS) with 60' of continuous dust bag for dustless, environmentally friendly bag changes.

TOP FEATURES:

The Bull 300's baby brother is here and compact for your jobs! The Bull 300 swept the industry as the best dust 110 volt dust extractor on the market, so SASE® created a compact version with the same amazing features. Now utilizes the same filters as the Bull 300.
